12. Tryk på **Tilføj**

The image shows a window titled "SMTP-server" with a close button (X) in the top right corner. The window contains two main sections: "Indstillinger" (Settings) and "Sikkerhed og godkendelse" (Security and authentication). In the "Indstillinger" section, there is a "Beskrivelse:" label followed by an empty text box. Below it is the "Servernavn:" label with the text "mail.vejen-net.dk" entered. To the right of "Servernavn:" is a yellow callout box with the number 13. Below "Servernavn:" is the "Port:" label with the text "587" entered. To the right of "Port:" is a yellow callout box with the number 14. To the right of "Port:" is the text "Standard: 587". In the "Sikkerhed og godkendelse" section, there is a "Forbindelsessikkerhed:" label with a dropdown menu showing "Ingen". To the right of the dropdown is a yellow callout box with the number 15. Below it is the "Godkendelsesmetode:" label with a dropdown menu showing "Adgangskode, usikker overførsel". To the right of the dropdown is a yellow callout box with the number 16. Below "Godkendelsesmetode:" is the "Brugernavn:" label followed by an empty text box. To the right of the text box is a yellow callout box with the number 17. At the bottom of the window, there are two buttons: "OK" and "Annuller". To the left of the "OK" button is a yellow callout box with the number 18.

13. Indtast mail.vejen-net.dk i feltet **Servernavn**
14. Indtast 587 i feltet **Port**
15. I **Forbindelsessikkerhed**, vælg da **Ingen**
16. I **Godkendelsesmetode**, vælg da **Adgangskode, usikker overførsel**
17. Indtast din **e-mail-adresse** i feltet **Brugernavn**
18. Tryk på **OK**

Din e-mail er nu opsat, og klar til brug.
